

Launch of Business Chamber heralds new business opportunities

The recent launch of Fezile Dabi Chamber of Business is set to unite all kinds of businesses in the district, to speak in one voice and have one approach. This district-wide Chamber of Business is formed of local business forums from local municipalities

within Fezile Dabi District Municipality.

The primary objectives of this Chamber according to its chairperson Mr Phaladi Matsole is to be the main source of funding for businesses and to work with various stakeholders including Local and Provincial Government as well as the private sector. "Working together with various stakeholders within the district and the province will help in creating conducive environment for businesses in the district to grow and prosper" said Matsole.

Various businesses from restaurants, shops, transport, farmers to professionals form part of the Chamber. "The businesses within the district must be visible in the economy of our district municipality, hence we want also to identify business opportunities both in government and in private sector. We are prepared to work with Local

Economic Development departments and also participate in the drafting of municipal budgets" added Matsole. Preparations are also on the advanced stage for the opening of the Fezile Dabi District Cooperative Bank that is expected to be launched soon. Its founder Mr Piet Mothepu said they are working around the clock to launch the District Cooperative Bank soon. "The Cooperative bank is expected to be launched soon, we are calling all business and ordinary people to join the bank" said Mr Mothepu. The offices for the chamber of business are situated in Metsimaholo municipality. "I would like to encourage businesses within the district to join us and work together in rebuilding the economy of the district that was also negatively affected by the Covid-19 pandemic. Business needs stable and

conducive environment to grow hence we are rallying behind our premier Me. Sisi Ntombela and the Provincial Interim Committee" said Matsole.
